Members are urged to please call Lori Labelle for reservations at 969-7557.

***** PROGRAM *****

Students and Staff from the Thames Campus of St. Clair College will be present to receive their Student Chapter and Charter.

This month's meeting will feature an Update on Natural Gas Technologies for Commercial and Residential Application. The presentation will cover current development work on items such as engine driven chillers, cogeneration/chiller packages, tonnage dessicant dehumidification systems and gas fired heat pumps. An update will also be given on currently available gas heating equipment and semi-rigid indoor gas piping for individual metering of apartments. The presentation will be made by George Prociw and Ron Brintnell of the Energy Utilization and Development Department, Union Gas Ltd, Chatham.

We strongly Encourage your attendance at this month's meeting to demonstrate our support for the students presently studying for a career in the HVAC industry.

***** MAY MEETING *****

Our final meeting for the 1986-87 year will be held at The Other Place Restaurant on Dougall Ave. President Panontin is sponsoring this meeting which will feature a guest speaker presenting a topic of general interest.

***** SATURDAY SEMINAR *****

"LAST CHANCE" to register at U. of W. seminar for April 11, 1987\$25.00 fee includes lunch and use of a computer to learn the BESA energy analysis software.

***** MARCH MADNESS *****

The 15 members and 5 guests who attended our "Student Papers" night heard an excellent presentation on the performance characteristics and financial viability of various "Do-It-Yourself" window glazing films. Unfortunately, based on peoples promises to attend, we contracted for

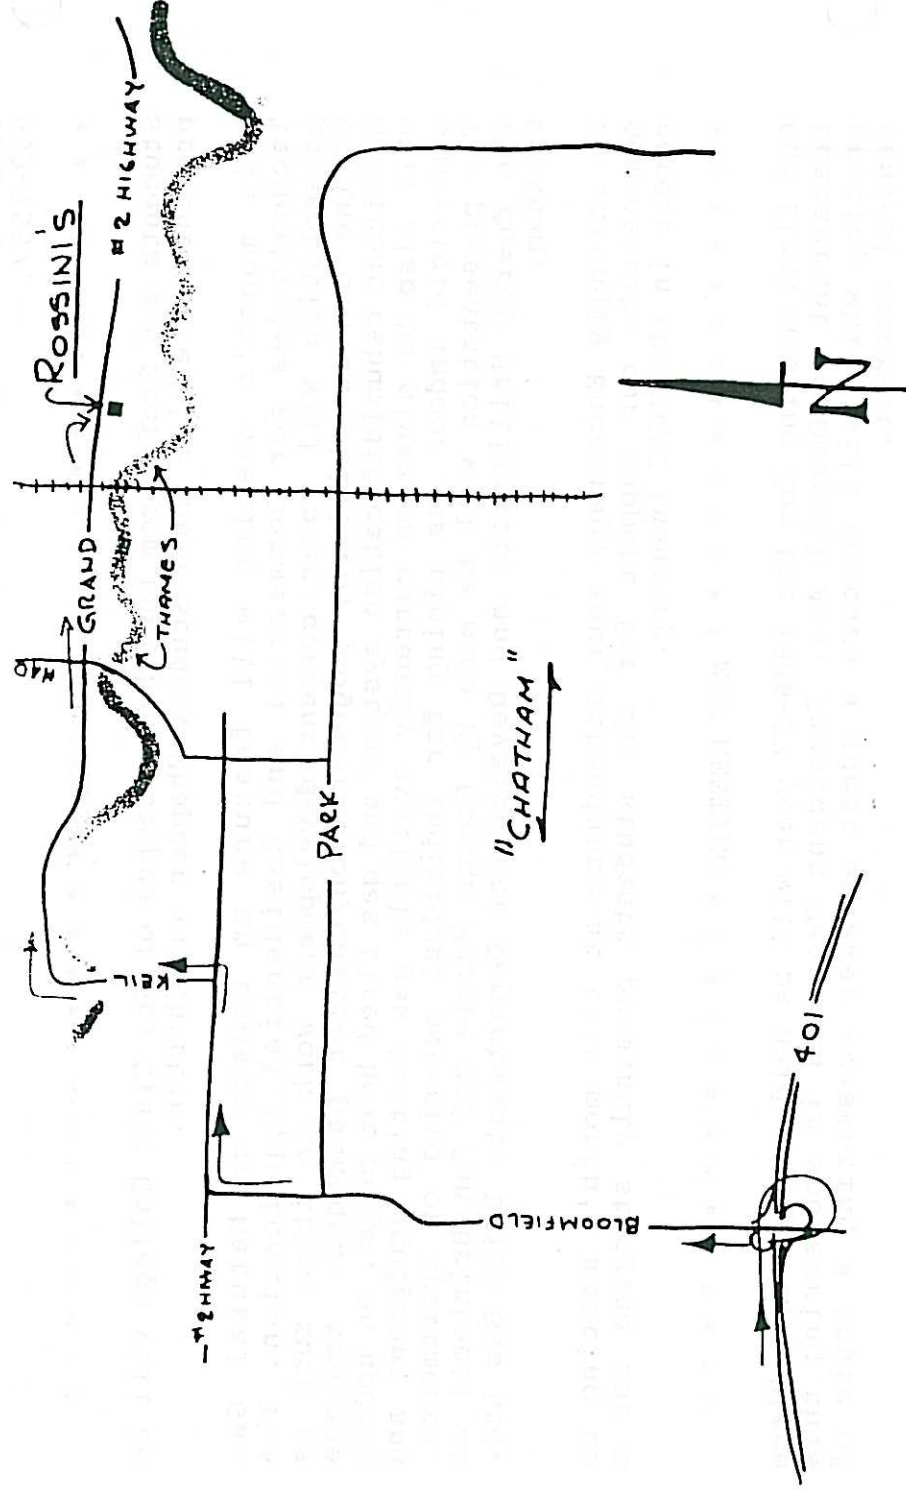

25 meals and have consequently suffered a loss of approximately \$100.00. "Please"...if you have no intention of attending the meetings do not say you are coming to make us feel good, it costs your chapter money.

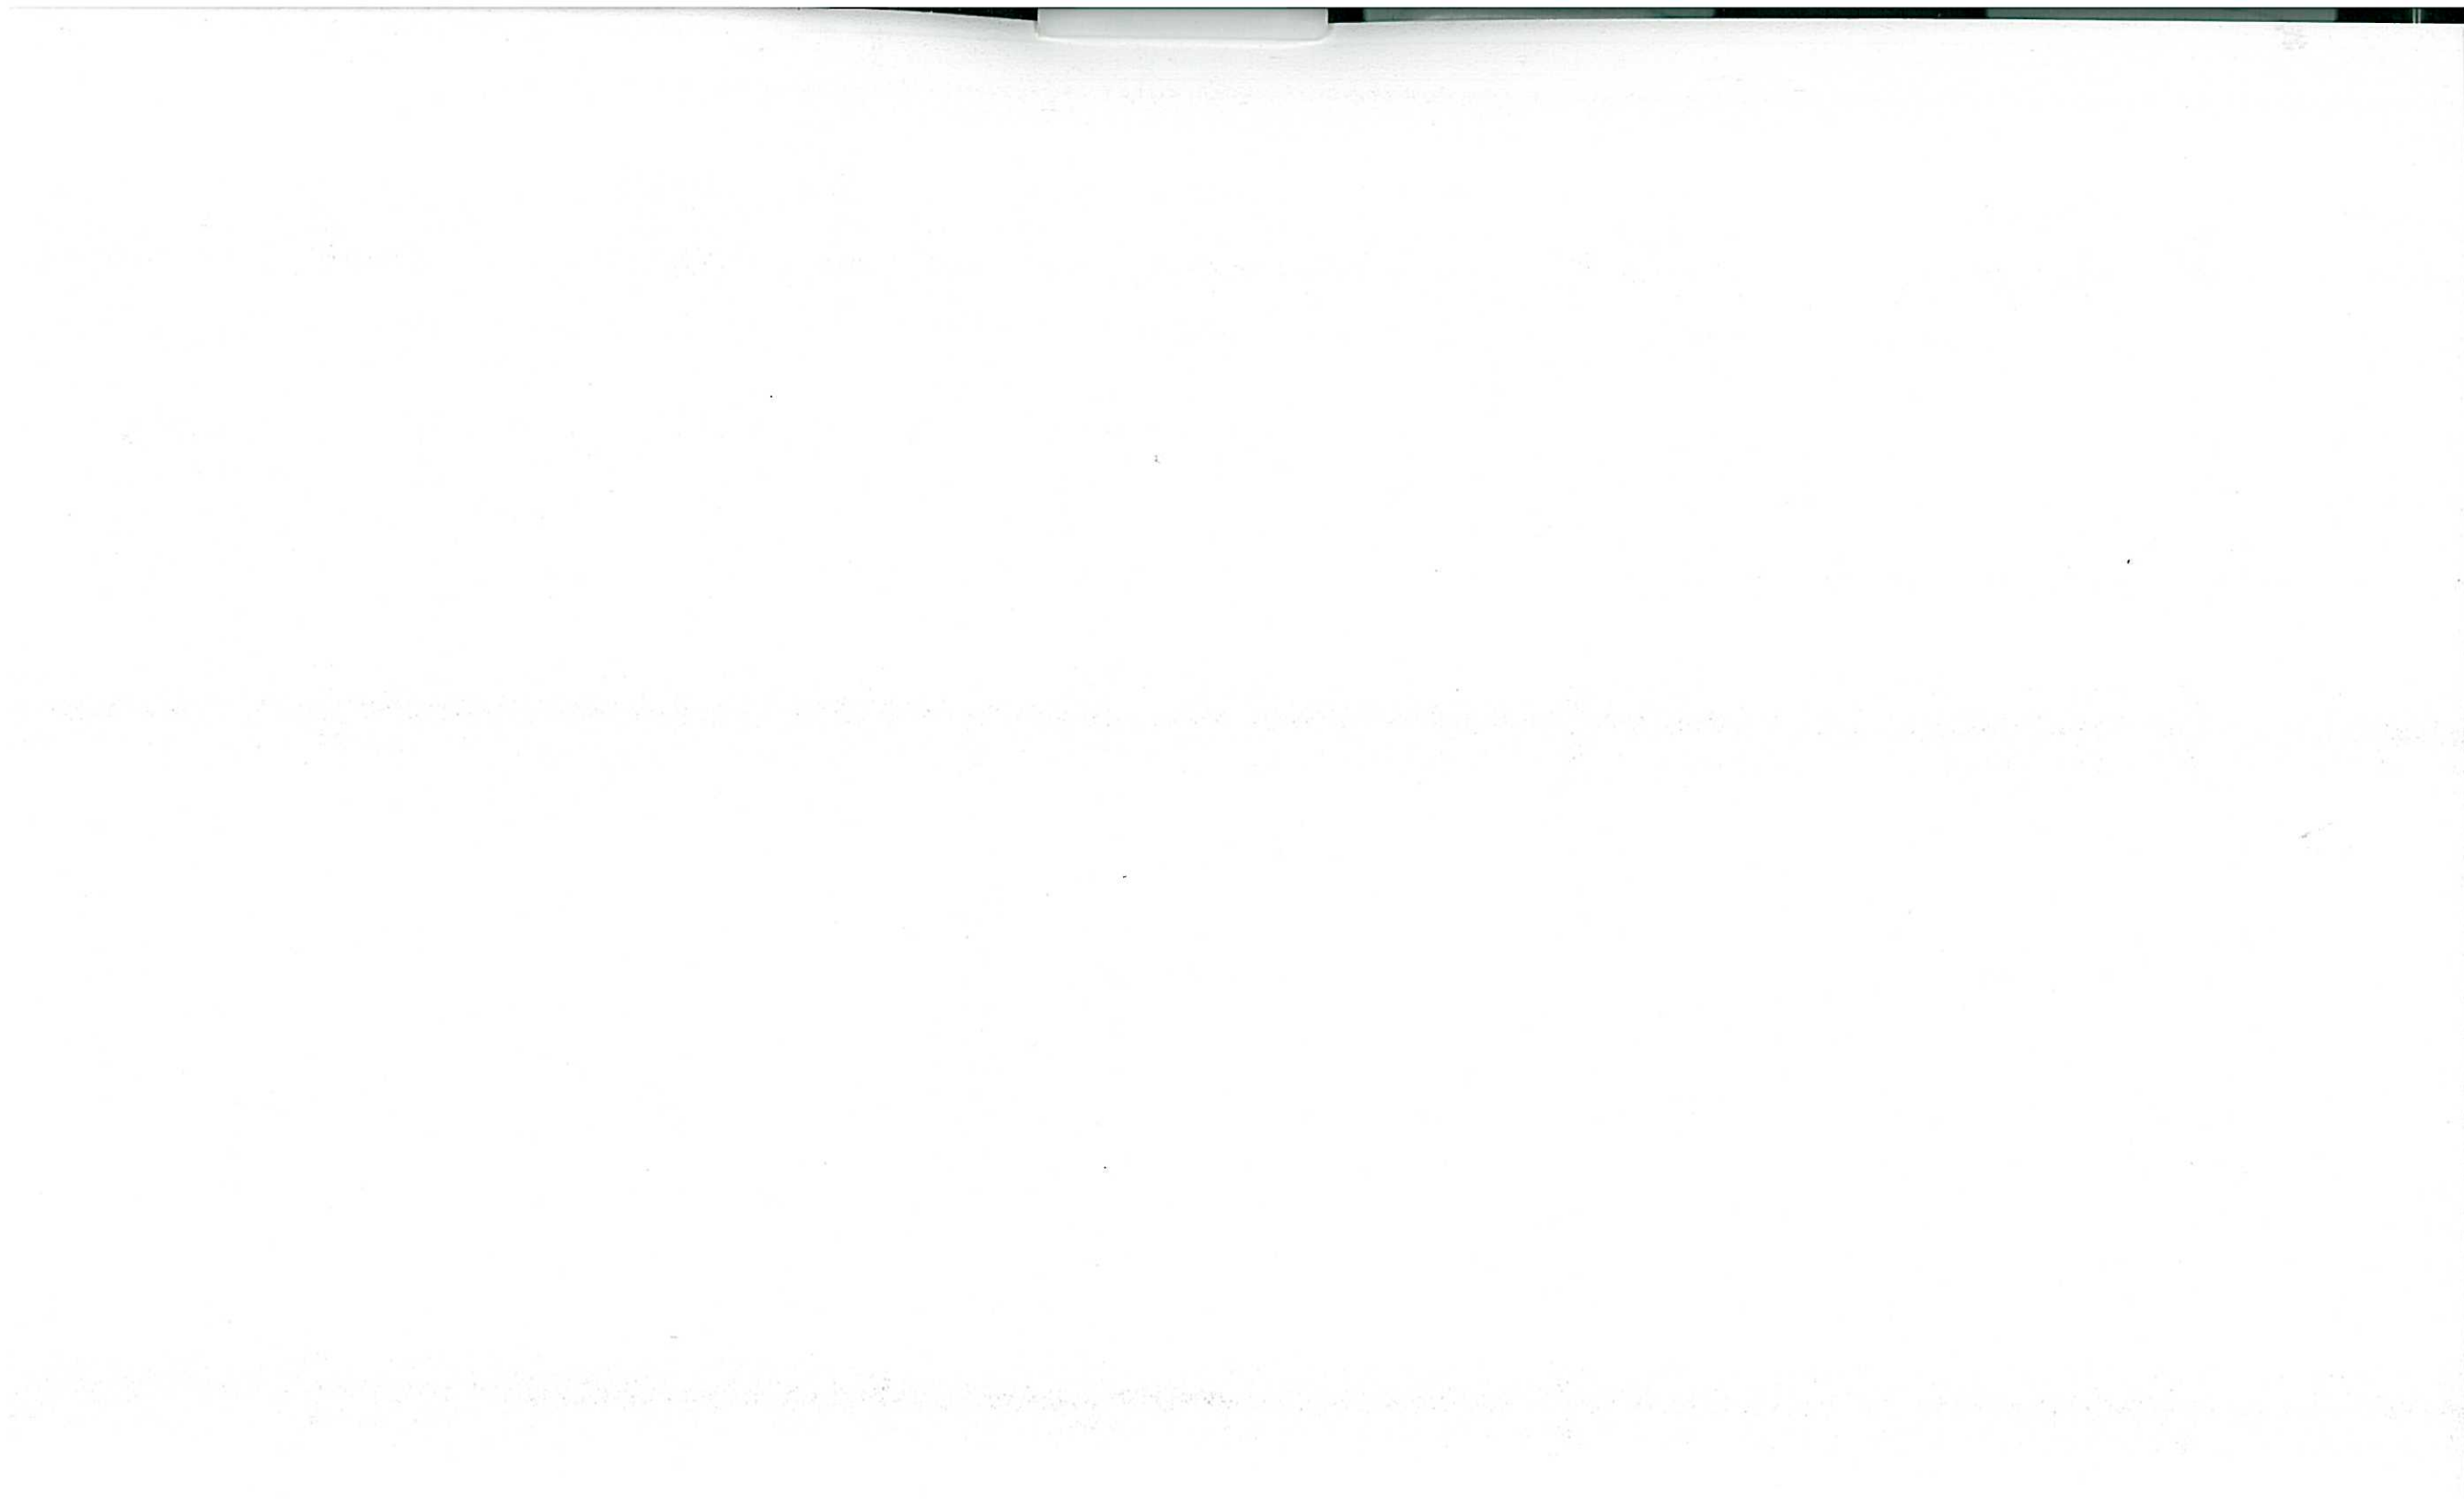

* * * * * NOMINATIONS * * * * *

At the March meeting Mr. F. Pelisek, chairman of the Nominations Committee presented the committee's slate of officers for 1987-88, they are:

* * * * * JUNE 10, 1987 * * * * *

The executive, board of governors and committee chairmen of our chapter will hold their first organizational meeting in late June. At that time we will set the 1987-88 budget and program. I am enclosing a list of all the people involved in running various committees within the chapter.

As you can see there are twenty-four positions to fill with some members covering several jobs.

As in years past we invite any and all interested members to assist us in the large task of running our chapter.

If you have any topic you wish to see covered at one of our dinner meetings please contact any member of the executive before June 15.

If you have changed address in the past year please include the change in you ASHRAE dues statement so that our records may be kept up to date.

This year we will attempt to set up a series of "mini-seminars" to be held during the cocktail period of our meetings. These technical sessions will be aimed primarily at our younger members and will be designed to give them a "kernel" of technical information that they may not already possess.

The seminars will cover a wide range of topics including air diffusion, pump and fan selection, coil selection, steam traps, control valve sizing etc.

We hope that our younger members will benefit greatly from these lessons and that they will be encouraged in their technical development within ASHRAE.

In July we hope to provide our membership with a tentative schedule of next years meeting dates and guest speaker topics.

Do not be shy when asked to speak about the merits of membership in ASHRAE it is through honest dialogue and comments that the uninformed come to know of our society. We are aiming at some significant membership growth this year and hope to once again capture the Region II blue ribbon for membership presented to Art Avian this past C.R.C. for his efforts in 1985-86. Congratulations Art.

Finally, another congratulation to Past President Dan Castellan for receiving a P.A.O.E. achievement award at Chicoutimi for his efforts while president in 1985-86. Look for the emblem on our chapter banner.

At our June 23, 1987 Board of Governor's meeting Art Avian reported a fiscal 1986/87 bank balance of \$1,759.57 which is an increase of \$501.19 over last year's final balance. We can also announce that this year's chapter dues will remain at \$25.00. Our 1987/88 budget has been expanded to include a \$100.00 award for the best third year H.V.A.C. project at St. Clair College, Chatham Campus.

G. Lavender presented a report to your board which surveyed approximately 10 area restaurants to locate an inexpensive facility which we could use as "permanent" home for 5 or 6 meetings this year. Surprisingly, we cannot get a meal in a private room with bar for less than \$14.00 anywhere surveyed. Therefore we are reluctantly setting our meal price this year at \$15.00 for members and \$20.00 for non members.

In our July Board of Governor's meeting we will finalize our meeting topics and guest speakers list and publish a complete schedule with the August newsletter. We have also started a permanent library for all CRC minutes and chapter reports collected since 1983. These documents will be held by N. Dario, chapter historian for reference at all future C.R.C.'s.

Since we will be finalizing our 1987/88 speakers list at the July meeting we encourage anyone with a special topic of interest to make it know to any member of the board and we will try our best to accommodate you. Our "mini-seminars" will cover air systems starting at the supply fan and terminating with a presentation on room diffusers.

Finally, August will be our month to collect chapter dues, please return your remittance as soon as possible so that you can be included in all our future mailings

At our July 14, 1987 Board of Governor's meeting G. Lavender completed the proposed 1987/88 program schedule in sufficient detail that we are sending out a copy to all members as an early preview of our upcoming year. There are some open speakers positions later in the year. We have several proposed subjects for presentation and will confirm our selection later in the fall. We feel that the schedule is as thorough as possible and includes all dates, locations, topics, mini-seminars and tabletop displays. We hope that you will keep it in a handy place of reference and schedule your attendance early.

The Board of Governors is again keeping the 1987/88 Windsor Chapter dues at \$25.00 which allows you a reduced meal charge at our monthly meetings. A Membership Roster will also be distributed in October, so please return your application and dues promptly.

Non-Chapter members will be required to pay a higher meal charge to help offset Chapter expenses (guest speakers, etc.) students may attend after dinner at no extra charge. Meal costs will be \$15.00 for Chapter members and students and \$20.00 for Non-Chapter members. Please confirm your attendance at the dinner meetings on a monthly basis, if possible bring exact change.

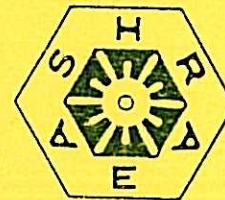

Again, please complete and return this form as soon as possible with cheque in the amount of \$25.00 payable to: "ASHRAE WINDSOR CHAPTER". Return to:
